FOOD INDUSTRY CLEANING PRODUCTS

DECLARATION OF "FIT FOR PURPOSE"

Company Name: Castle Chemicals Pty Ltd.
Company Address: 16 Rural Drive, Sandgate, Newcastle NSW 2304
Name of Compound: Lab 495
Category of use: b) Cleaning Compounds. (1) General Cleaner Type A.

This declaration is based on the same criteria as is now required by Bio Security Australia (formerly AQIS) in their requirements for the use of chemicals in export registered meat and meat product establishments as published in AQIS Meat Export Gazette Notice No 2011/05. This declaration is to be read in conjunction with Chemical Safety Data Sheet (SDS) and Label.

We, Castle Chemicals, declare:

[1] The chemical is intended for use as a general purpose cleaning agent for use in all areas.

[2] If used in accordance with the directions on the label / technical bulletin, the chemical;

a) Does not deleteriously affect food or food produce;
b) Does not deleteriously affect the health or wellbeing of people involved in, or associated with its use; and
c) Is environmentally safe.

[3] The formulation of the chemical complies with;

a) Any relevant standards set in out in the Australia food standards code of the Australia New Zealand Food Authority; and
b) The requirements of the NSF "Registration Guidelines for Proprietary Substances and Non-food Compounds" and any applicable FDA Regulations.

[4} the chemical will be manufactured labelled and contain directions for use in accordance with the details supplied in this document.
