

Dispensing Options

DISHWASHERS

The D2000 Pod/ Titan Dispenser Unit, Lightweight 4.5kg capsule - long-lasting and reduces the number of lifts against a conventional liquid system.

Flushing cap technology - no-clog format allows complete use and removal of product, reduces risk of chemical contact at change over.

The Dema Nitro warewash dispenser line bridges the gap between compact basic dispensers and feature packed units too large for small kitchens. Nitro has the versatility to be used with or without a probe from the same unit and the flexibility to be used on a single tank, door or conveyor machine.

Castle Chemicals Commitment

Since 1972, Castle Chemicals has built its reputation on the manufacture and supply of innovative, value-added products, systems and services.

ISO 9001, Quality Management Systems status became part of our culture in 1994. We have used this systems approach to business to drive continual improvement in product development, quality and process traceability.

A simple business strategy developed in 1972 by the late Des Barrack, the founder, still sets the standard for Castle Chemicals into the future. "We work hard to earn the loyalty of our customers by providing innovative quality products that get the job done, along with experience, service and training that is carefully designed to meet our customers needs."
