

FOOD INDUSTRY CLEANING PRODUCTS DECLARATION OF “FIT FOR PURPOSE”

Company: Castle Chemicals Pty Ltd.
Address: 16 Rural Drive, Sandgate, Newcastle NSW 2304
Product: Tornado
Category: b) Cleaning compounds. (26) Miscellaneous Compound.

1. Purpose of Document

This declaration confirms that Tornado - Laundry Spotter has been assessed by Castle Chemicals for suitability in food industry laundering applications and is considered Fit for Purpose when used according to the instructions provided.

2. Product Description

Tornado is a high-performance pre-wash spotting agent for organic, protein, tannin, oil, grease, cosmetic, or particulate stains commonly encountered in food-processing and food-service environments.

3. Intended Use

For targeted spot-treatment of stains on fabrics prior to laundering. Suitable for uniforms, aprons, cloths, and wipers used in food-processing environments. Not for direct contact with food or food-contact surfaces.

4. Food-Industry Suitability & Safety

When used as directed and followed by a complete wash and rinse cycle, no hazardous residue remains. The formulation does not contain chlorine, phenolics, QAC residues, or other substances likely to cause contamination after laundering. Complies with GHS7 workplace safety classification.

5. Directions for Use

Apply a small amount directly to stain, allow 1–5 minutes dwell time, do not allow drying, then launder immediately using a full wash and rinse cycle.

6. Quality Assurance

Manufactured under Castle Chemicals' QMS, including raw material verification, batch QC, retained samples, and traceability. Shelf life: 24 months.

7. Declaration

Castle Chemicals declares that this product, when used as instructed and laundered properly, is Fit for Purpose for food-industry laundry applications and presents no foreseeable risk of chemical contamination to food.
